Business: The group's principal activity is to provide information services to the United States commercial real estate industry. The group's suite of product offers customers access via the Internet to the most comprehensive, verified database of commercial real estate information. The strategy of the group is to provide commercial real estate professionals with critical knowledge to complete transactions, by offering the most up-to-date, consolidated and standardized information. The group delivers its content to customers through ten distinct products and services. The wide array of digital service offerings includes a leasing marketplace, a selling market place, sales comparable information, data hosting for clients' Web sites, decision support, contact management, tenant information, property data integration, property marketing and industry news. In 2003, the group acquired property intelligence plc and in 2004, peer market research inc and scottish property network.
