Business: The group's principal activity is to design, develop, manufacture and market proprietary, high-voltage, analog integrated circuits. These circuits are primarily used in converting alternating current to direct current power conversion. The products are marketed to high-volume power suppliers including communications, consumer, computer and industrial electronics markets. The group also provides application-engineering support to its customers. The products of the group are sold in the United States, China, England, Germany, India, Japan, Korea, Singapore and Taiwan.

Business: The group's principle activity is to design and manufacture power conversion products for the communications infrastructure market. The group's products are used to convert and process electrical energy to the high levels of quality, reliability and precise levels of dc voltage required by the digital economy. The group's products include ac/dc power supplies, dc/dc converters, dc power systems, dc/dc point-of-load converters and digital power management architecture. The major customers of the group include Cisco Systems, Nokia, Nortel, Lucent, Alcatel, Hutchison 3g, Extreme Networks, Motorola, Agilent, Siemens and Teradyne. The group has operations in Dominican Republic, Norway, Switzerland, China and Ireland. The group markets its products through a global sales force with direct sales offices in Europe, North America, Asia and Australia. The group's quarterly revenue for September 2007 was 131.48 millions of USD.
