Business: The group's principal activities are to develop, market and support software products and technologies to enhance creation, transport, viewing and printing of electronic documents. The group operates through three segments: type, myfonts and pageflex segment. The type and technology division segment license products and technologies to original equipment manufacturers and independent software

THE CORPORATE DIRECTORY - Walker's 2009

vendors for inclusion in their output devices. The myfonts.com segment provides Internet display fonts in an e-commerce Web site. Pageflex segment provides software that produces customized data sheets and brochures directly from xml text. The group also sells custom and other type products directly to end users such as graphic artists, desktop publishers and corporations.
